

SKYLINE

Wallwasher

The Litpa SKYLINE series Wall Washers offer a durable range of luminaires distinguished by their decorative, elegant body and minimalist, flat design. These features make them especially popular for facade-mounted applications and as stylish decorative elements in modern architectural projects. Customizable to meet architectural requirements, the SKYLINE series is available in various sizes and optical configurations. Enhanced by Litpa's advanced optical components, these luminaires deliver outstanding performance—particularly in applications requiring close proximity to users. For such needs, Litpa proudly presents the SKYLINE series.
